# Life and Times at Sho Mai Sou Shiba Inu

## Sho Mai Sou Dog Visits

We welcome and enjoy visits to meet our dogs. Do to COVID-19 we have transitioned most of our dogs to our climate-controlled shop. We only accept visits from people on our "Short List." We are looking forward to lifting the restriction.

**Sho Mai Sou Approved Homes** We get a lot of applications each day. More than we can process, so we ask that you only apply for a puppy if you meet the following criteria (questions, email, call or message us):

1. House with fenced yard (or apartment/townhouse/condo with fenced yard).
2. Citizen of the United States or Permanent Resident status.
3. 18 yoa or older.
4. You are you comfortable with a \$2500 - \$5000 price range.
5. We prefer active homes that are involved in AKC/UKC conformation, dog sports such as CAT/Fast CAT, Agility, Obedience, Scent Dog etc. We especially like to see our dogs go into homes that have children who plan or are currently participating in 4H and/or AKC Juniors with their dog(s) and/or have previous experience with Shiba Inu.

## Litter Plans / Adult Dogs

**Bella Bravo Litter** – A [Kuzya](#) X [Bella](#) Bravo litter is expected 12/27/2020. Ultrasound reveled at least 4 puppies on 12/18/2020. She was bred to sire outside of our kennels (Georgia) name [Kuzya](#). Sesame red and black/tan (no cream) puppies are expected. You can see more of [Kuzya](#) on our outside sesame sires page at [http://shibas.dog/External\\_Sesame\\_Sires.html](http://shibas.dog/External_Sesame_Sires.html)

- [Ayumi Charlie Litter Genetic Forecast](#)

**Ayumi Charlie Litter** – A [Riku](#) X [Ayumi](#) Charlie is being planned. She came in season in November 2020 and we expected to use frozen sperm from a full, but older brother to Kuzya who lives in Canada. This litter would be born late January 2021. We expect to see red, sesame and black/tan (no cream) puppies from this breeding. You can see more of [Riku](#) on our outside sesame sires page at [http://shibas.dog/External\\_Sesame\\_Sires.html](http://shibas.dog/External_Sesame_Sires.html)

- [Ayumi Charlie Litter Genetic Forecast](#)

**Michi Bravo Litter** – A [Guccifer](#) X [Michi](#) Bravo Litter breeding was completed in August but was unsuccessful. We will attempt

this breeding again in February 2021. This is a co-owned litter that will be born in West Virginia. This is a repeat breeding, the Alpha litter was 3 red girls. This mating can produce red or cream (not sesame or black/tan). Both the sire and dam carry the recessive cream gene, so risk of cream puppies is also a possibility. The album on the Guccifer X Michi Alpha Litter is [here](#).

**Adults To Approved Home** (Selection process for our adult and retired dogs is more strict than the selection process for our puppies). None available at this time.
